## Cal OES Activation Status

State Operations Center	Inland Region EOC	Coastal Region EOC	Southern Region EOC
Level 1	Level 1	Level 1	Level 1

### Organized Demonstrations, State of California

Per the Cal OES Law Duty Officer:

- The Governor's Office of Emergency Services, Law Enforcement Branch is monitoring several organized demonstrations throughout the State of California.

### Cal OES Coastal Region

#### **Helicopter Operations/Training, Lake Mendocino, Mendocino County**

The Mendocino County Sheriff's Office will be conducting a joint training effort between the California National Guard, Cal Fire, Search and Rescue Teams from Lake, Napa, Marin, and Mendocino Counties, the US Army Corps of Engineers, and the Mendocino County Sheriff's Office. This training will occur on July 12th and 13th, 2016 around Lake Mendocino and around the Cal Fire Station at Howard Forest from 7:00 AM through Midnight both days.

- Starting on July 11 the public will see an increase in helicopter operations regarding this training exercise in the area of Lake Mendocino, around the Ukiah Municipal Airport, and on the Ridgewood Grade near the Cal Fire Station.
- For Safety reasons during this training the US Army Corps of Engineers has closed the South Lake Mendocino Wildlife Area, including all hiking trails east of the Lake Mendocino Dam to the general public. These areas will re-open on Thursday July 14, 2016.

#### **Train Derailment, Oakland, Alameda County, SPILL: 16-4211**

On 07/12/16, at 0252 hours, Union Pacific Railroad reported that one locomotive derailed one set of trucks upright due to unknown reasons. No injuries to crew or passengers and no hazmat release. Notifications made per SOP.

## **Active Weather Warnings, Watches and Advisories by County:**

[http://www.wrh.noaa.gov/sto/brief/wwa\\_bc\\_cal.php](http://www.wrh.noaa.gov/sto/brief/wwa_bc_cal.php)

## **WEATHER SYNOPSIS BY REGION**

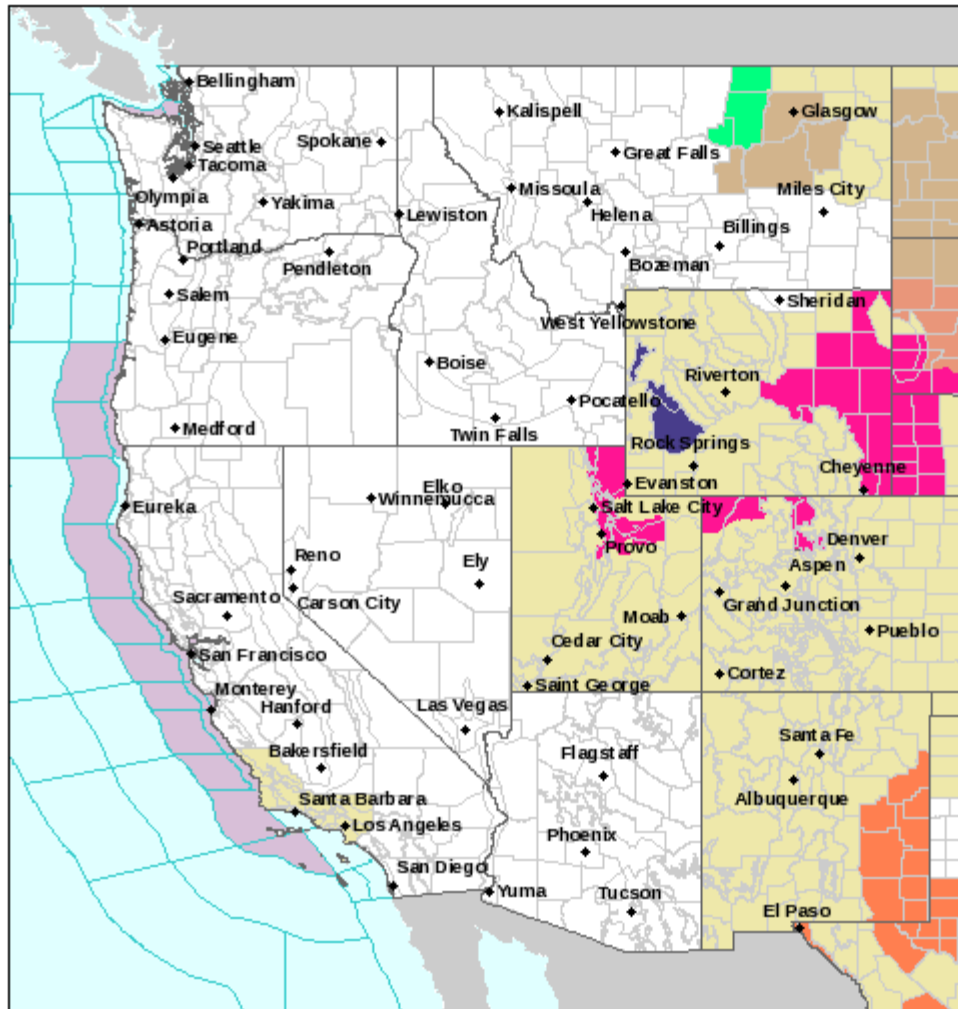

### **NORTHERN CALIFORNIA**

A West-to-East zonal flow pattern will be in place over Northern California through Thursday as a series of lows track across the northern tier states and high pressure builds over the Desert Southwest and southern California. The high pressure will gradually become the dominant feature for Northern California, producing a drying and warming trend. By Wednesday temperatures will warm to near normal. A light north to northeast downslope surface wind pattern will be in place during nights and mornings in and around the Sacramento Valley, but come to an end by early afternoon each day. Afternoon southwest to west winds east of the Cascade-Sierra crest will gust to around 30 mph each afternoon. Coastal regions will be mild and breezy under the influence of the marine layer. On Friday a low pressure trough will begin to develop overhead and it is expected to deepen through the weekend. There is only a slight chance of afternoon convection in far northern areas beginning Friday. The bigger impact will be a gradual cooling trend with increasing winds. Areas east of the crest will have afternoon gusts to 30-35 mph.

### **SOUTHERN CALIFORNIA**

Current west to northwest winds of 15 to 25 mph with gusts to 40 mph across the desert passes and the Grapevine will lighten by mid morning as the area of low pressure that moved inland across the Pacific Northwest yesterday moves to the northeast and into Canada this morning. A weak Pacific trough over the West Coast will cause temperatures to remain a little below normal today, with 70s to low 80s across the mountains and mid 80s to mid 90s in the valleys. High pressure currently over West Texas will expand westward bringing a slow warming trend to the region Tuesday through Thursday. Temperatures will be 5 to 10 degrees above normal by Thursday. Another weak Pacific trough will bring slow cooling to the area Friday through this weekend. This trough will also bring south to west winds of 15 to 25 mph with gusts to 40 mph to the desert passes Friday through this weekend. Minimum humidity will be mainly in the teens away from the coastal areas through Tuesday and then there will be more in the way of single digit minimum humidity Wednesday through this weekend.
